

Arcadia S02

Original title: Arcadia S02

Arcadia is a family drama set in a dystopian world in which almost all human life has been swept away by climate change. The survivors create a new world, a new order, a new society. They see it as a second chance for humankind. They introduce a citizen score, which determines what you can and cannot do, and what you are entitled to in daily life. But there's a catch. There is also minimum score, below which you cost society more than you contribute. If you go below the minimum score, you are expelled beyond the walls of Arcadia, where there is nothing.
