

FLY – beyond the spectrum

Original title: FLY - los van het spectrum

Labelled disabled or autistic as teenagers, Brian, Jason, Jules and Kieran faced fewer opportunities and lost their self-confidence. Now in their twenties, they are at a crossroads in their lives. Will they have an independent future? Will they ever find a job, meet a partner, or start a family? The film, on which the young people have been actively collaborating for years, is a creative process and an emotional journey that aims to strengthen their self-image and prospects.
