The The Invisibles Ones

Original title: De onzichtbaren

The Invisible Ones follows filmmaker Martijn Blekendaal as he captures the remarkable stories of people who, as children, developed the ability to go through life unseen and unnoticed. Martijn records these tales of creative invisibility, ultimately realising his own superhero dream. The result is a playful and colourful quest that leads from Gotham City to Hollywood, from Gaza to Ghent. And from an obscure film lab deep underground to a long-forgotten Spanish film pioneer.
